## ANC Security Enhancements

### Background

- ❑ SA Directive 2014-21 – directed Commander JBM-HH to provide law enforcement, security and fire support to ANC on a reimbursable basis.
- ❑ USNORTHCOM directed increased security measures in July 2015 (USNORTHCOM FP Directive 15-200). In addition USARNORTH issued Force Protection Directive 15-011.
  - ❑ Directives required certain Force Protection measures be implemented.
  - ❑ The NORTHCOM Directive is based in part on incidents such as the active shooter incident in Chattanooga and concerns with the threats posed by homegrown extremists.
  - ❑ ANC is open to the public with over 3 Million visitors annually requiring significant augmentation to comply.
  - ❑ ANC received USNORTHCOM waiver March 2016 based on a mitigation strategy.
- ❑ ANC contracted for visitor screening support as part of waiver mitigation strategy. Contract awarded 16 Sep 2016.
- ❑ FPCON B Random measures in place.
- ❑ Public notification campaign began 12 Sep 2016

### Procedures

- ❑ ANC, along with Joint Base Myer-Henderson Hall Directorate of Emergency Services, designed the security plan for implementation.
- ❑ The pedestrian access points on Memorial Avenue, Ord & Weitzel and Service Complex Gates will have screening. The Welcome Center will have screening lines for visitors and express options for those with disabilities or no bags. Screening will entail a combination of ID checks, magnetometer screening, and bag screening (x-ray and visual inspections).
- ❑ All vehicle access will require presenting a valid government issued photo identification (driver's license, passport) when entering the cemetery. Vehicles may be subject to random inspections as the program matures.
- ❑ Family members with a permanent gravesite vehicle passes may continue to drive to their loved ones' grave with a valid ID.
- ❑ The phased implementation approach coincides with limited visitation months. We anticipate being able to scale resources as demand changes and lessons learned are incorporated.

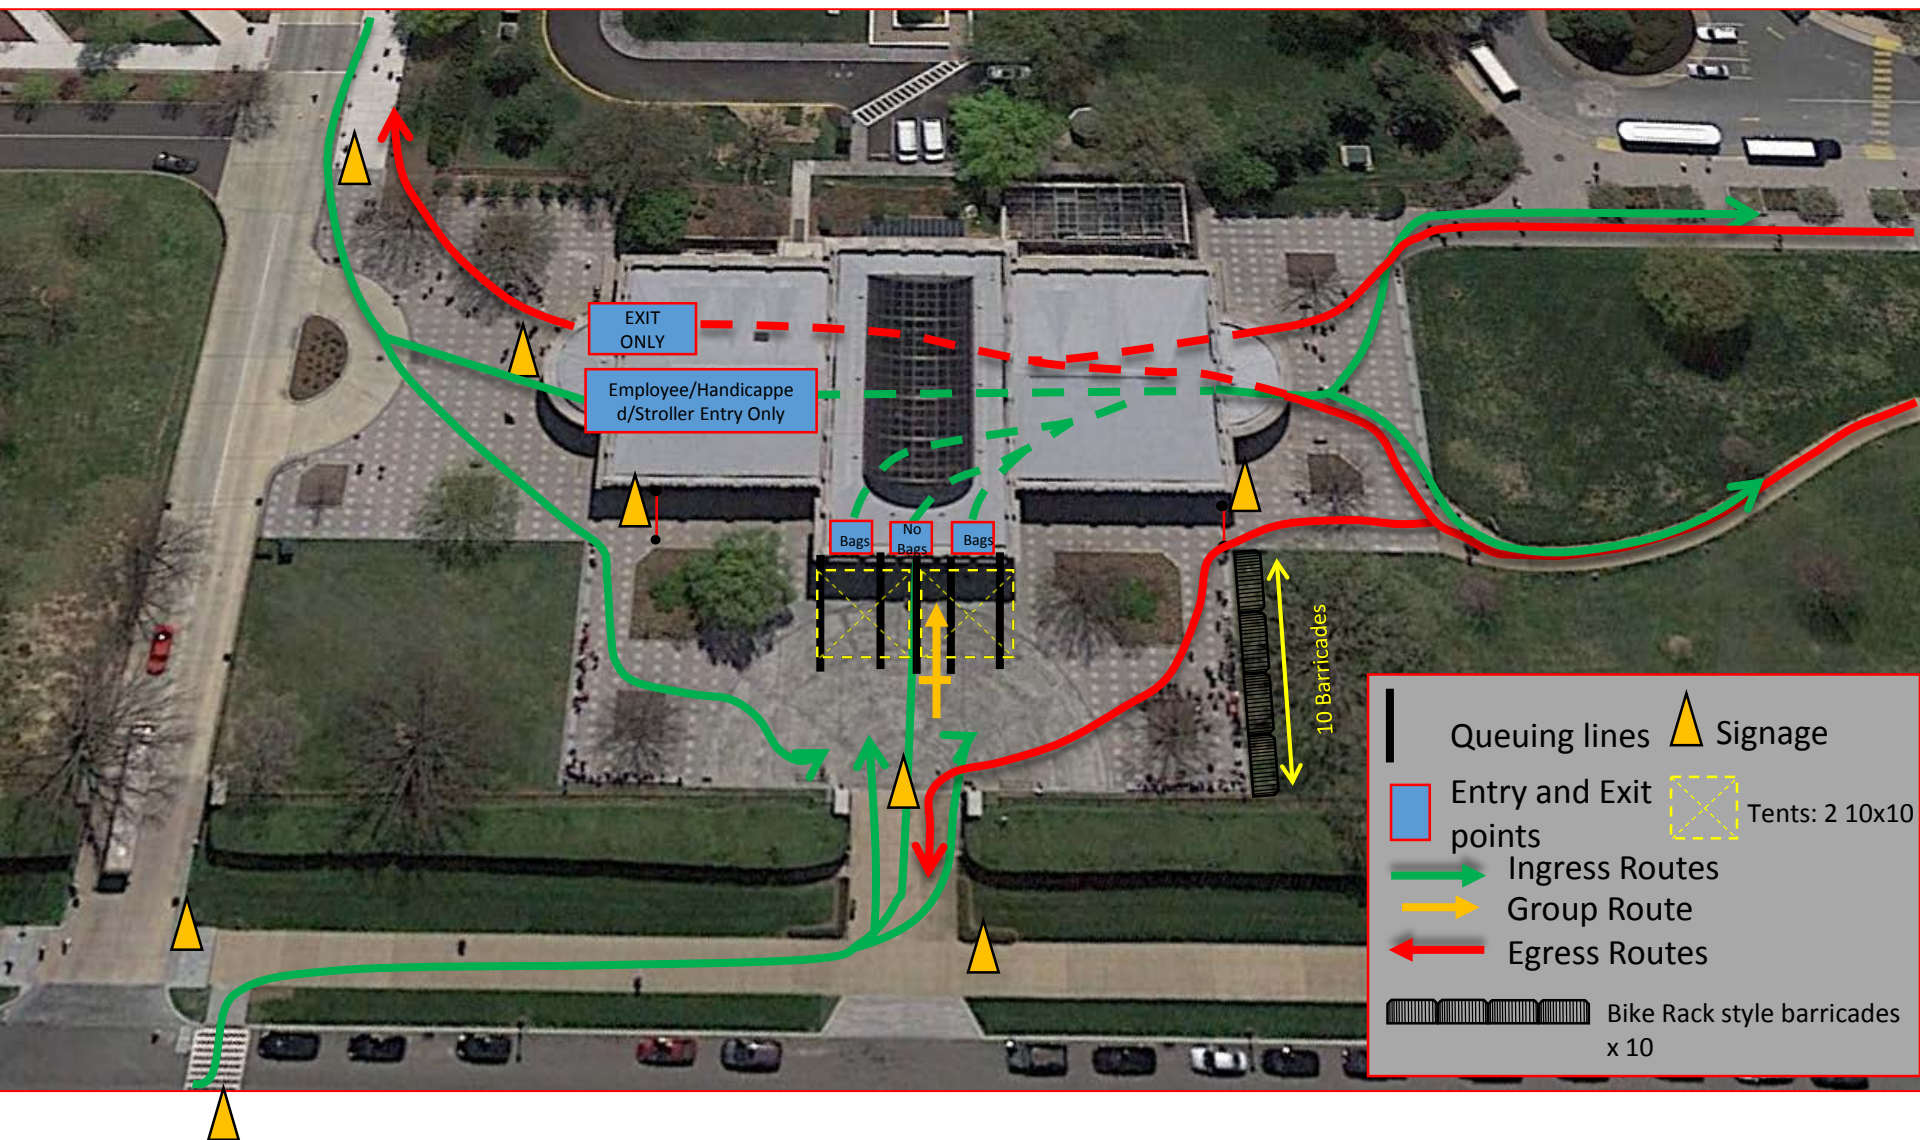

### Prohibited Items

- ❑ Explosives - any ordnance
- ❑ Firearms - any caliber
- ❑ Knives - blades more than 3 inches
- ❑ Illegal Narcotics
- ❑ Fire works - any type / pyrotechnics
